French Women Don ' t Get Fat meets The Little Book of Hygge in this lively, sophisticated, and practical illustrated lifestyle guide that shows how to enjoy la belle vie—to live like the French every day—transforming your house into a home defined by beauty, family, and accessible elegance. How do the French create the elusive and alluring sanctuaries they call home? This question long intrigued Danielle Postel-Vinay. Thanks to a chance encounter with a French expat in La Crosse, Wisconsin, and years of immersive research, she embarked on a quest to discover the secrets of the French home aesthetic. Experiencing first-hand la belle vie—the beautiful life—Postel-Vinay now shows everyone how to create their own French sanctuary, a home sweet maison, no matter where they live. Providing more than just interior decorating and design tips, Postel-Vinay teaches you how to foster the warmth, beauty, and rituals inherent in the French home and create an environment better suited to living a rich, full, connected life. At the center of the book is the idea that your house should be a reflection of you, your hobbies, your family history, your rituals, all the things that make your life unique. A happy home is a home that expresses your rituals and your taste, not one that relies on prefab d é cor from a mass retailer. Home Sweet Maison takes a room-by-room approach to show how the French view: The Aesthetic: why the objects in your home matter, why minimalism is overrated, and why the French always choose the perfect d é cor for their salons The Practical: how to use mise-en-place, or the French art of organization, in your kitchen, and how to find the right stain-removing potions to create your own French laundry The Sensual: the way the French employ scent in their home as a personal signature The Philosophical: the idea that every room in a French house has a specific purpose, and that the activity in one room should never bleed into the others Home Sweet Maison encapsulates the very heart of the French way of seeing the world: set the table formally, adhere to all the conventions of ritual and tradition, then take pleasure in indulgence. It ' s about using French concepts and routines to change our homes, our relationships, and our lives for the better.

For over thirty years Heloise's column "Hints from Heloise" has been an American institution, read by millions daily. In *All-New Hints from Heloise*, her first new household-hints book in almost a decade, Heloise has created an indispensable home reference guide that focuses specifically on today's changing life-styles. The operative word today is convenience--getting what has to be done accomplished in the limited time available. You will still find an abundance of the time-tested household hints from Heloise so many have come to expect, from removing spots and stains to caring for household plants and fixing squeaky floors. In addition, you will also find scores of hints on using and maintaining household appliances that simply didn't exist in most homes a decade ago. Organized by subject, and cross-referenced with a comprehensive index, *All-New Hints from Heloise* provides up-to-date advice on everything from home care inside and outside to travel, entertainment, children, pets, and more. This is the first household self-help book to take readers beyond the traditional concerns of the past and help prepare them to overcome the hurdles of the '90s.

The classic book on how to remove spots and stains in the household. Re-issued from the original publisher in its original form. Contents - Preface - Chapter 1. Introduction - 2. Fibers - 3. Fabrics - 4. Dyes - 5. Basic Rules for Stain Removal - 6. Safety Rules to Insure Best Results - 7. Equipment Aids to Stain Removal - 8. Stain Removing Agents - 9. Stains and Methods for Their Removal - Preface - Home care requires the utmost skill and ingenuity of the homemaker. Because of the

extremely high standard of dress and personal hygiene in this country, endless care and effort is expended in order to maintain this acute attention to good grooming. For the homemaker, the removal of stains represents a major portion of her expertness in running her home successfully. Each member of her family contributes his and her share of stains not only in the natural use of their surroundings, but more often in their use of wearing apparel. The frequent need for removing stains from clothing bears heavily upon the budget where one is completely dependent upon professional cleaning. To meet this challenge, the thrifty and efficient homemaker seeks information and the means by which she can care for garments, household linen, and household furnishings. The professional cleaner is equally alert in keeping abreast with information that concerns his work and efficiency. Textile fabrics are of the greatest variety and complexity in their chemical and physical composition. Also the stains are often complex in nature since a stain may be composed of several staining substances such as, for example, machine oil which in addition to the oil, may contain particles of metal and carbon. The dry cleaner in the end is sought for his special skill and experience in dealing with complex stains and for the reconditioning of a fabric as near as possible to its original physical condition and appearance. This book is designed to present basic facts and give simple rules and directions for the use of the homemaker who can then remove spots and stains effectively and economically. The book also affords the dry cleaner with a ready reference to the stain removing chemicals and the procedures in applying them. The dry cleaning industry and allied industries where spot and stain removal are of interest, should welcome an up-to-date and simplified treatment of this subject which includes information on the newer fibers, fabrics, and dyes.
